About Me

I am a motivated and detail-oriented professional with a strong background in cost control, store management, procurement, treasury, and revenue management. My expertise spans key financial and operational areas, where I've consistently improved process efficiency, enhanced data accuracy, and supported strategic decision-making. I am highly skilled in using systems such as the Material Control System, Sun Accounting System, Opera, and Excel to streamline inventory and financial operations.

Alongside my finance and operations experience, I have developed a solid foundation in software development. I am proficient in Python, Flask, MySQL, SQLite, PostgreSQL, and HTML & CSS, with beginner-level skills in C and JavaScript. This technical capability complements my financial knowledge, allowing me to create integrated, data-driven solutions that enhance performance and support organizational goals
